Flow School

Basic Flow

Course F-101 - 16 hours

This introductory course to flow will start by providing maintenance and engineering personnel with a basic understanding of numerous flow technologies. The basic portion will focus on the physics of flow and concepts applicable to virtually any manufacturer's equipment. Following this introduction, we will proceed with in-depth training on magnetic and Coriolis flow meters. The class will be a combination of classroom and hands-on training.

Date: February 3-4, 2016

Location: Warren, Caguas

Price per student: \$1,500.00

***Now Only: \$975.00**
